

SINCE WHEN IS PROCURE-TO-PAY ONLY ONE PROCESS?

Enterprise Imaging Platform is a value-added middleware that automates complex business processes by integrating enterprise applications and document-based information flows.

No other single solution can deliver these business advantages:

Integrate Documents
EIP helps intelligently capture and integrate critical data from all paper documents used in the process.

Connect Enterprise Applications
EIP helps distribute critical data from processed documents among your key Enterprise Applications like ERP CRM, and ECM.

Reduce Exceptions
EIP helps improve the first time match rate and streamline, manage, and reduce exceptions.
