

# MAIL2CLOUD

Manage, Collaborate, Secure

Integrate your email and your cloud storage platform. Intelligently file messages, attachments, and documents in one place for easy access, control, and security.

## ALL THE POWER AND SIMPLICITY OF CLOUD STORAGE NOW FOR YOUR EMAILS

### YOUR EMAIL + YOUR CLOUD STORAGE

#### Email Security and Governance

Track, control, and govern messages and attachments. Apply rules to archive, retain, and hold based on your compliance and security policies.

#### Email Collaboration

Securely share important emails with team members. Automatically capture email conversations to cloud storage folders with meta-data. Email and attachments can be stored by client, matter, project, or other taxonomy, etc. Leverage powerful search, security, and collaboration tools.

#### Email Management

Lost in email? Inbox quota full? Email archive hard to search? Save email to document storage with the simplicity of drag & drop or let intelligent auto-filing do the work for you!

## HOW IT WORKS

Mail2Cloud intelligently captures the emails you want. A powerful analysis engine examines headers, body text, and even attachment content to automatically classify and file each message to the correct cloud storage folder.

- Works with most popular email services: O365, GSuite, Exchange, etc.
- From any device: Windows, Mac, mobile, etc.
- Most popular email programs: Outlook, MacMail, Gmail, etc.
- Integrates with: Box, Egnyte, Citrix ShareFile, MS OneDrive, Google Drive
- Optimizes email for rapid cloud storage search

## WHO IS IT FOR?

Mail2Cloud is designed for businesses of all types looking for a game changing technology that will radically improve their email productivity and security. The only requirements are email and a targeted cloud content management platform (Box, Egnyte, OneDrive, Google Drive, Citrix ShareFile).

### LEGAL

Collaborate over emails automatically sorted into client folders. Comment on messages without confusing and risky email forwarding. Securely manage access permissions to share correspondences. Access content anytime/anywhere with mobile app access regardless of file type.

### ACCOUNTING

Automatic, secure delivery of messages and attachments. Send and receive large emails from any device. Detailed tracking of email access. Deny access to attachments via secure links after X days (via organizational defined workflow and link security rules).

### HEALTH/LIFE SCIENCES

Leverage GDPR, GxP and HIPAA compliance for your email content. Auto detect ePHI and ensure proper delivery without end user effort. Large attachment delivery without end user software. Govern cohort and constituent email collaboration around content.

### OTHER

Mail2Cloud's solution works horizontally across a variety of industries beyond those highlighted above, including: Consumer Packaged Goods, Retail, BioPharma, and others. Contact us to find out how our solution maps to your particular organization's needs.

### INFORMATION TECHNOLOGY

IT departments deploy Mail2Cloud to drive content governance, security, retention, search enablement, and innovation around enterprise workflows while narrowing the organizational burden aligned to email-based content retention.

## USE MAIL2CLOUD TO ITS FULL POTENTIAL WITH PROFESSIONAL SERVICES FROM CANON SOLUTIONS AMERICA

Whether your business is large or small, remaining competitive in the global economy means you need to concentrate on what makes you successful—your core business. When selecting and implementing new technology, a highly skilled technical team makes the difference for a successful deployment.
