

MULTIFUNCTIONAL FIREWALL AND UNIFIED COMMUNICATIONS SOLUTION

SMART CHANGE STARTS HERE.

 CANON SEE IMPOSSIBLE

NetGuardian^{SMB} is a unique all-in-one multifunctional firewall, ISP Failover, and voice solution. Helping businesses by protecting their vital operations, improving their communications, and helping to significantly reduce the monthly costs of network data and voice services, NetGuardian's cutting edge technology offers ease of use and simple installation and deployment, with high levels of security.

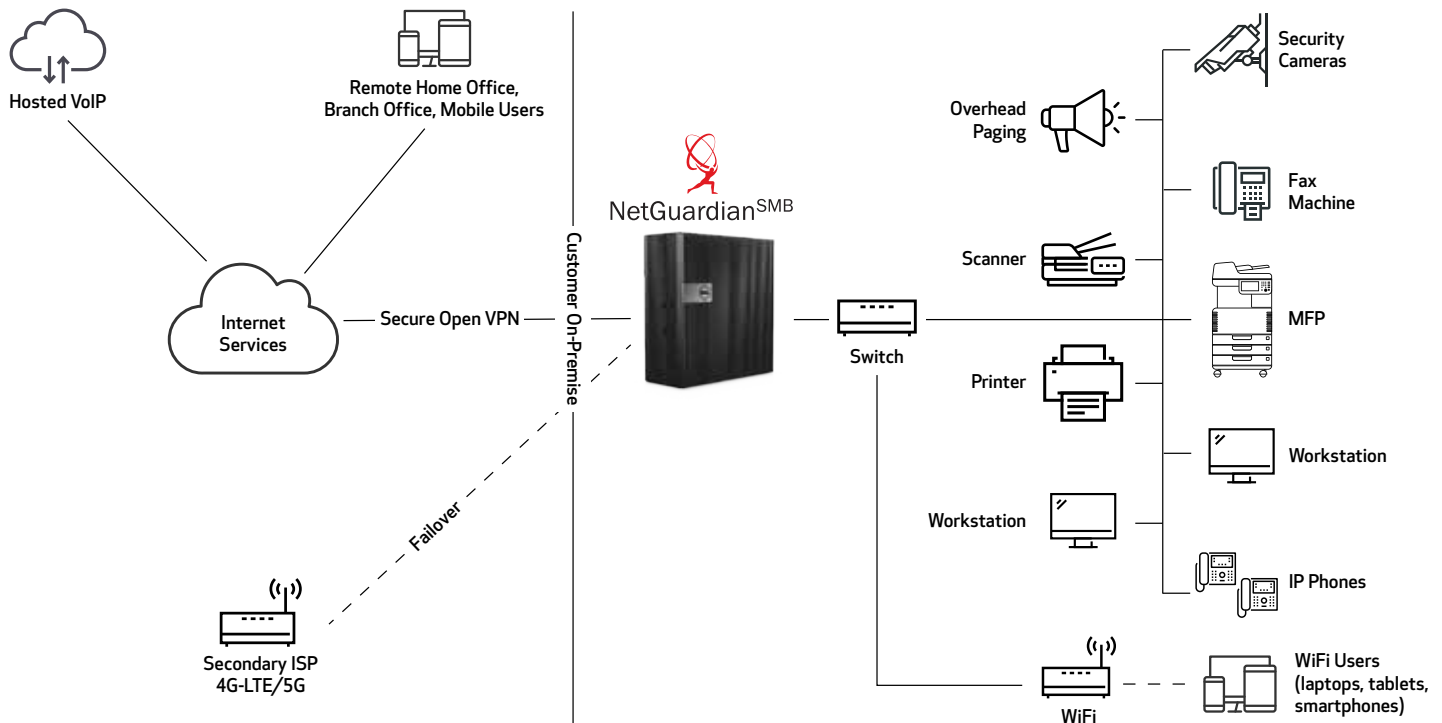

NetGuardian^{SMB} combines Security, Data, and Voice networking solutions on a single platform. By deploying NetGuardian^{SMB}, businesses can end the constant cycle of purchasing and maintaining multiple expensive solutions. Security is consolidated on a unified platform, simplifying threat management and response. Data and voice services are streamlined, improving business operations and controlling costs.

Reduce your IT footprint with a complete, innovative solution that is easy to use, maintain, and update. Rest assured that you have the most recent cybersecurity network protection combined with secure and low-cost VoIP communications, priced to be the industry's best value.

NetGuardian^{SMB} is a unique Unified Communications as a Service (UCaaS) offering. NetGuardian^{SMB} bundles three solutions into one turnkey device, combining NetGuardian's Firewall and Web Content Filtering tool set, ISPGuardian's Failover services, and CommunicationsGuardian's VoIP offering." Pre-installed on a Dell PC5000 server appliance, the on-premise system is ready to deploy in minutes.

The NetGuardian^{SMB} solution includes:

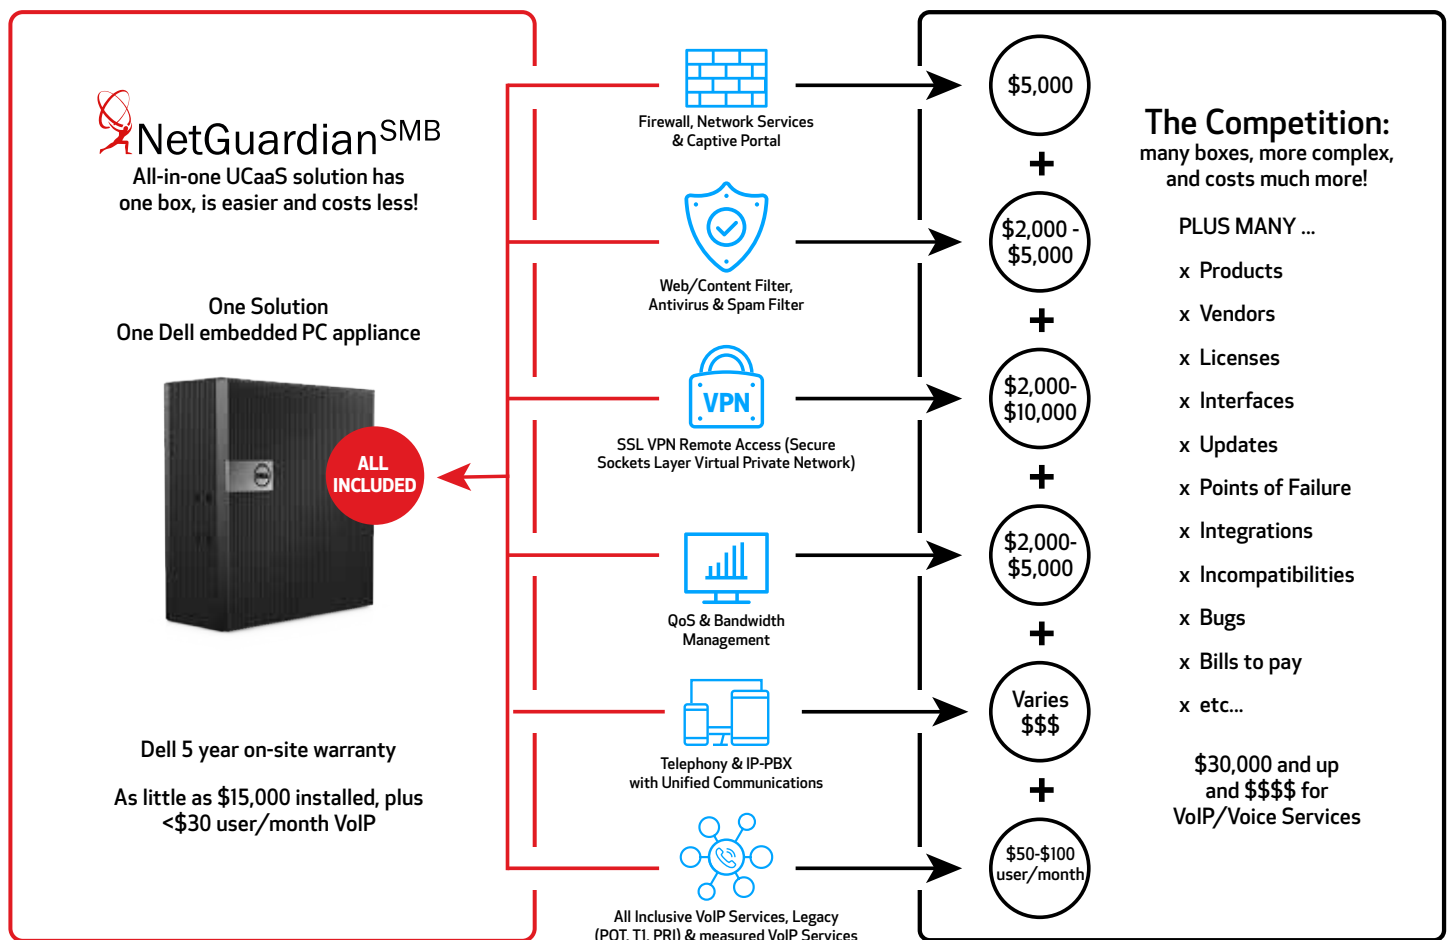

- Network and security services including Firewall, Network Services, Captive Portal, Web Content Filtering, Antivirus (malware), SPAM Filter, SSL, VPN, QoS, Bandwidth Management, and much, much more.
- ISPGuardian provides internet failover services using 4G/LTE.
- CommunicationsGuardian provides all-inclusive VoIP services and UCaaS.
- Bundles include Dell PC 5000 appliance.
- Additional network peripherals and telephony equipment are available for a complete solution for your business.

BENEFITS OF NETGUARDIAN^{SMB} INCLUDE:

- ONE platform, ONE operating system, ONE interface for all networking and communications services.
- A scalable data and voice infrastructure software that provides the ability to run secure data and voice services from a single appliance, with the ability to expand as your business grows.
- Affordable and effective network security and communications, at up to 50% off the cost of competitive offerings, presenting a Low Total Cost of Ownership (TCO).
- Centralized management of network and voice systems with advanced functionality that is easy to use and easy to manage.
- Predictable IT budgeting; consolidate multiple services bills into a single invoice.

HOW NETGUARDIAN^{SMB} WORKS:

- NetGuardian^{SMB} is delivered to your location pre-configured and ready to plug into your network.
- NetGuardian^{SMB} comes with remote support to get you up and running with your new solutions in as little as 30 minutes.
- Need on-site help with cabling and/or telephony equipment? NetGuardian is available to come on-site and help create your network from the ground up.
- Want complete support for your solution? Premium Support Services are available for complete deployment, end-user training, and support and management of your solution.

GET THE MOST OUT OF YOUR NETGUARDIAN^{SMB} SOLUTION
