

DS-64i

FOLDER INSERTER

User-Friendly Mail Assembly Solution

SMART CHANGE STARTS HERE.

USER-FRIENDLY MAIL ASSEMBLY SOLUTION

Versatile, Intuitive, and Productive

The DS-64i folder inserter can accommodate a wide range of documents, inserts, and business reply envelopes (BRE), making it the ideal choice for a variety of applications and office environments. The DS-64i combines unparalleled ease-of-use with advanced technology. The intuitive color touchscreen control panel prompts the operator through each step of job setup and operation. Quadient Remote Assistance enables folder inserter diagnostics and operator support to help increase mail assembly productivity.

Easy Operation

The color touchscreen display and automatic job setup make the DS-64i exceptionally easy to use. Simply load envelopes and documents and the DS-64i will adjust all settings automatically and even save them to the memory for instant recall. And, with automatic adjusting feeders, the process is exceptionally smooth.

Multi-Page Processing

Efficiently and accurately assemble and process multi-page sets. The internal CIS scanner reads inserter control codes (OMR, OCR, or BCR) which can be printed nearly anywhere on the document, providing you hours of time savings and helping to get your mail out faster.

The DS-64i Can Be Custom Configured

Increase Processing Efficiency

- A single multi-functional feeder
- An intuitive easy-to-use control panel

Prepare Invoices and Statements

- Two multi-functional feeders
- Finished envelope side exit
- Store and recall up to 50 jobs

Easily Create Marketing Mail

- Crisply fold up to 8 pages
- Load 1,200 inserts or 325 BREs with optional MaxiFeeder

Add Business Reply Envelopes

- Feed sheets, inserts, or BREs
- High-capacity vertical stacker
- Automate multi-sheet documents

Business Impact

Revenue Growth

Maximize opportunities to better communicate with customers

Risk Mitigation

Help ensure that every recipient receives the right mailpiece

Customer Engagement

Create your own professional looking mailpieces

Expense Control

Support productivity with ease of use and speed

DS-64i

1. High-Capacity Vertical Stacker Preserves printing order and holds up to 500 finished envelopes so operators spend less time unloading.

3. Feeder Linking Continuous operation is achieved by linking feeders. If one feeder runs empty, another one automatically takes over, allowing you to refill as needed until your job is complete.

2. Touchscreen Display 7" color graphical interface with wizard-based programming helps to make operation simple and intuitive.

4. Envelope Hopper 150-envelope capacity with on-the-fly reloading.

5. Automatic Collator Collate and fold up to eight pages together.

Processing Flexibility

DS-64i's FlexFeed function allows you to process all document formats (inserts, documents, and business reply envelopes, etc.). Additionally, the "Daily Mail" function even allows hand feeding of multi-page stapled document sets.

Efficient Processing

Load the feeders, and the DS-64i will accurately assemble the documents, fold, insert, and even seal the finished envelopes, all in one quick process. The high-capacity envelope stacker is designed to help improve accessibility and unloading of envelopes on the fly.

Enhance the DS-64i with the Optional Performance Package to Help Increase Productivity:

Processing speed: Up to 2,500/hour

Folding capacity: Up to 8 sheets/single fold

Multi-document feeding: Up to 10 documents

Monthly volume: Up to 20,000/month

Automated Document Preparation

Quadient's optional Output Management Software (OMS) can help add significant value by enhancing the formatting, personalization, grouping, printing, barcoding, and addressing of your documents.
