

Kofax eCopy®

Kofax eCopy ShareScan® is a capture and workflow solution that enables users to design workflows for document capture and processing.

PRODUCT OVERVIEW

eCopy ShareScan® utilizes users' existing, compatible infrastructure and captures information from compatible device platforms, including many multifunction devices (MFD) and mobile devices¹. Offering users a central way to help manage paper-based and electronic documents, data from corresponding documents is then processed and routed.

eCopy ShareScan currently offers a number of connectors² to compatible line-of-business (LOB) applications, document management systems (DMS), and collaboration platforms, helping users to route information quickly and efficiently into electronic workflows². In fact, users can quickly set up buttons to on-ramp documents to compatible destinations from the MFD front panel.

eCopy ShareScan also offers a variety of other features that can be enabled, including document preview on the MFD, type-ahead lookups, and the rapPIDTM "Remember Me" feature for scanning multiple documents with the same settings, all of which help to provide users an intuitive end user experience.

KEY CAPABILITIES

- Capture from a wide range of compatible MFDs.¹
- Enhance, extract, batch convert, recognize, or export as a Microsoft® Word® or Excel® file.²
- Upload, save, or send files that work with compatible back end systems.³
- Recognize words contained in scanned documents using OmniPage® OCR.
- Create personalized workflow buttons for scanning to specific folders in real time.

KEY BENEFITS

- On-ramp documents quickly to compatible locations.²
- Integrate Microsoft® Active Directory Services for log-in and personalized workflows.³
- Convert scanned documents into Microsoft® Office® formats.
- Connect seamlessly to Microsoft® Outlook®, OneDrive®, and SharePoint®.^{2,3}
- Help mobile users to capture and send information downstream with the optional Kofax Mobile Connect application.⁴

1. A list of supported devices is accessible by using the Kofax Supported Device Lookup tool: https://kofaximaging.custhelp.com/app/imaging/supported_devices/

2. A list of available connectors and a list of compatible third-party and cloud applications and supported versions are available on Kofax Navigator (eCopy Connectors Datasheet): <https://www.kofaxnavigator.com>. Connector availability as of October 1, 2019. Specifications and availability subject to change without notice.

3. Subscription to, and/or purchase of, product is required. Subject to third-party provider terms and conditions. Neither Canon Inc. nor Canon U.S.A., Inc. represents or warrants any third-party product, service, or feature referenced hereunder. Specifications and availability subject to change without notice.

4. Optional add-on. See Canon U.S.A. Partner Portal for additional information and compatible mobile devices: <https://www.partners.usa.canon.com>.

5. Canon offers products that contain certain security features yet many variables can impact the security of your devices and data. Canon does not warrant that use of features will prevent security issues. Nothing herein should be construed as legal or regulatory advice concerning applicable laws; customers must have their own qualified counsel determine the feasibility of a solution as it relates to regulatory and statutory compliance. Some security features may impact functionality/performance; you may want to test these settings in your environment.

6. "High availability" refers to the ability of a system or system component to be continuously operational for a specified length of time.
